served with vanilla ice cream*

Dear Explorers,

Welcome to Evolution Restaurant,
where our inspiration and innovation comes alive through a unique fusion of
Ecuadorian and International flavours.

While creatively and lovingly preparing our dishes using the best and freshest
ingredients, we aim to indulge your taste buds and take your culinary experience
to another level.

The exploring doesn't have to stop until you go to sleep at night!

We will take you on a journey from traditional Ecuadorian cuisine to our own
spin of world renowned dishes as well as feel-good food, which everyone enjoys
from time to time.

Having said that, such task is never easy in a place as remote as the Galapagos
Islands, however, the purity and the rich flavours of local ingredients definitely
make everything worthwhile.

I can only hope you enjoy the food as much as we love making it.

On behalf of the team at Evolution, we wish you a great stay and an
extraordinary adventure.

- Chef Norman Brandt
